At Legrand AV, we understand the challenges that come with K-12 hybrid learning. That’s why we’re committed to innovative solutions that help connect teachers and students – no matter where they are. Explore our K-12 solutions to maintain the most vital connections, today and every day.
Redefining Education

The unexpected shift to remote learning has revealed that many schools are still struggling to incorporate technology into their daily routines. Yet more devices are being used for teaching and learning than ever before.

New products and services are being introduced at a speed not seen before. So how do you keep pace with technology advancements and still deliver exceptional learning experiences?

With a partner like Trox.

We’re helping educators find and use the right tools to navigate remote and hybrid learning every day. In fact, Trox-provided technology is in use by more than 20 million students daily in the U.S. and Canada.

Whether your school is fully remote, back in classrooms, or somewhere in between, Trox experts and our end-to-end portfolio of products and services can help you deliver exceptional learning experiences for your students.

TAKE A PEEK AT WHAT WE CAN OFFER.
Why Trox
Partnering With Educators for Transformative Change in Education

Navigating the modern EdTech world is hard. There are so many choices -- devices, audio visual, learning management systems, hardware, accessories and more. As in-person instruction returns, it’s likely that new technology will remain an educational fixture as a result of its positive impact on students and teachers alike.

We understand the immense burden of responsibility that you carry today - managing the present while creating the future.

For nearly 40 years, we have worked alongside educators and IT leaders to help millions of students become effective digital learners. A partnership with Trox provides access to an unparalleled selection of proven education technology products and services, and experts who are solely dedicated to the education industry.

All children deserve a quality education that prepares them for a bright future. We’re here to help you fulfill that mission.

OUR COMMITMENT:
• We'll provide expert advice and access to proven technology brands and services.
• We'll guide you on how to optimize your technology to maximize your investments.
• We'll simplify complex solutions and make them affordable and accessible.
• We'll deliver peace of mind with industry-leading service, warranties and support.
• We'll continue our intense focus on addressing education's unique challenges.
Remote Learning

To help create learning environments where students feel as normal as possible, many schools are adapting technology and teaching techniques to make the most out of remote learning.

**Trox has seen five primary remote learning models emerge:**

1. **Home to Home**
2. **Remote Classroom to Home**
3. **Blended Classroom to Home**
4. **Blended Classroom to Classroom**
5. **Large Blended Classroom to Home**

Supporting each of these models requires different capabilities and technologies. Team Trox can help you implement and maintain an ideal learning environment, while working to maximize the long-term value of your technology investments.

We’ll work with you to find the right combination of technology and services so that your faculty, staff and students can excel.

View our Remote Learning Must-haves guide here.
Remote Classroom to Home

When teachers are physically in the classroom and students are not, deploy tech tools that can enable interactive instruction and participation in lessons.

1. WEARABLE USB MICROPHONE
2. TEACHER PC
3. PTZ USB CAMERA
4. CLASSROOM DISPLAY
5. NETWORK
6. REMOTE STUDENT DEVICES
Blended Classroom to Home

In this learning setting, the teacher facilitates lessons from the classroom where some students attend physically, and others log in and participate remotely.

1. WEARABLE MICROPHONE
2. MIXER
3. MULTI-ELEMENT CEILING MICROPHONE
4. AMPLIFIER
5. CEILING SPEAKERS
6. USB
7. PTZ WALL CAMERA
8. CLASSROOM DISPLAY
9. NETWORK
10. REMOTE STUDENT DEVICES

...AND MANY MORE
In this learning setting, the teacher facilitates a class in which some students attend in person, while a second group of students view and participate in the same lesson from another physical space on campus.

FEATURED TROX PARTNERS...
Large Blended Classroom to Home

This setting allows for lessons to be delivered by the teacher from a large classroom where some students attend in person and others log in and view the lessons from home.

1. CEILING MICROPHONES
2. AUDIO DSP
3. GOOSENECK MICROPHONE
4. ASSISTED LISTENING
5. AMPLIFIER
6. LARGE SPEAKER SYSTEMS
7. CEILING AUDIENCE PTZ CAMERA
8. CEILING INSTRUCTOR PTZ CAMERA
9. CAMERA ENCODER
10. VIDEO SWITCHER
11. PC
12. LECTURE CAPTURE
13. AV BRIDGE
14. CLASSROOM DISPLAY
15. TOUCH CONTROL
16. CONTROL
17. POE SWITCH
18. NETWORK
19. REMOTE STUDENT DEVICES

Keeping Everyone Safe & Healthy

Today, promoting safe and healthy practices in schools is a top priority.

That’s why Trox offers a wide range of products – from digital signage to UV-C sanitization carts, that can be used to facilitate social distancing and protect students and staff on campus.

Offerings cover six primary areas of need:

**Screening Devices & Accessories**
Reduce the spread of COVID-19, the flu and other viruses in schools with screening devices that can detect potentially sick students before they enter schools.

**Protective Dividers & Partitions**
Install dividers and partitions on classroom desks as an extra layer of protection between students and create more opportunities for safe collaboration.

**Device & Room Sanitization**
Prevent germs from spreading quickly by implementing routine sanitization practices for all shared devices, hardware, screens and rooms.
View our Health and Safety Catalog online to see specific offerings in this area.

**Smart Locker Systems**
Leverage smart lockers to distribute learning tools, like laptops and Chromebooks, in a contactless manner without the need for shared keys or combination locks.

**Digital Signage**
Communicate important safety messages to students, faculty and campus visitors using flexible digital signage that can be easily placed and programmed as needed.

**Personal Protective Equipment (PPE)**
Protect yourself and others with PPE that helps reduce the risk of contact and contamination on campus.

To learn more, read "Keeping Everyone Safe & Healthy: How Technology Can Help" and find additional resources on our website at trox.com/resources.
National & State Contracts
Use Collective Buying Power to Save Big on Technology and Services

Many school IT buyers don’t realize the full benefits of purchasing through nationwide or statewide contracts. Cooperative contracts provide thousands of products and services at reduce rates in streamlined order processes, delivering time and cost savings for those handling procurements.

Trox has been awarded the ability to provide education technology and services on a vast number of contracts across the U.S. As a result, we’ve helped thousands of schools stretch their IT budgets when purchasing hardware, software and services.

Visit Our Contracts Directory
Trox products can be found on five nationwide contracts and more than 80 state/district contracts. Check out our state-by-state contract directory, or call your local Account Executive at 1.855.TROX355 to find out what opportunities are available for your school.
Make the most of Federal and State Funding

The recently signed American Rescue Plan has provided a new round of coronavirus relief for schools with an unprecedented infusion of federal aid for K-12. Funding is now available to address learning loss, to improve school facilities and infrastructure to reduce the risk of transmitting the coronavirus, and to purchase education technology. This is in addition to the March 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act, which provided $31 billion in emergency education funding for schools across the U.S.

Trox is committed to supporting educators in getting students back in the classroom for in-person instruction safely.

We can help you determine the best way to use available funding to improve access and update technology and infrastructure to best serve students, teachers and staff. Consult your Trox Account Executive today for more information.
The use of 1:1 technology in the classroom has become a critical core element to engage students and enable teachers to deliver lessons in a more adaptive way.

With the right combination of devices, accessories and services, you can create significant capacity for teachers, allowing them to improve focus on meeting student needs.

To learn more, read ‘4 Steps to Implementing an End-to-End IT Solution for Remote Education’, and find additional resources at trox.com/resources.

Trox offers a variety of computing solutions to help with connectivity, communication and collaboration:

**New Devices**
Spark student learning with affordable Chrome- and Windows®-powered devices that help build engaging learning experiences from anywhere.

**Recertified Devices**
Stretch your budget and get more devices to more students by investing in recertified devices that look and perform like new at a fraction of the cost.

**Enterprise Hardware**
Create the optimal IT infrastructure for your school or district with powerful servers, storage, networking, wireless access points, workstations and telephony products.

**Charging & Storage**
Keep laptops, tablets and other devices ready to use with flexible charging carts, cabinets and storage options.

**Peripherals & Accessories**
Find essential components - cases, keyboards, mice, screen protectors and more - that protect and extend the value of your devices.

**Software**
Leverage software to ensure all devices and hardware are working as intended to meet your school’s remote learning goals.
BR1100C/F SERIES

BR1100CKA-Y502 / BR1100FKA-Y502T / BR1100FKA-Y524T

For students who need a tough device, privacy features, and a stable connection, the ASUS BR1100’s military-grade durability, Wi-Fi 6, and webcam privacy shield will endure the stresses and strains of everyday use and enable secure connectivity.

• Ultimate rugged design to withstand everyday knocks, bumps and drops
• Anchored keyboard for uninterrupted learning
• AI noise-canceling technology to provide exceptional remote learning experience
• Wi-Fi 6 technology powers ultrafast and stable speeds for online learning
• Antibacterial protection

CHROMEBOOK FLIP C214MA

C214MA-YB02T / C214MA-YB02T-S

Durable and sturdy, the C214 is ruggedized to protect against accidental drops and the rigors of everyday wear and tear.

• Military-grade MIL-STD-810G durability
• 360-degree hinge for versatility
• Handy built-in stylus
• All-day battery life
• Easy-to-service modular design

CHROMEBOOK C204

C204MA-YB02-GR

The ASUS Chromebook C204 is packed with clever features to protect it in the real world, such as the all-round rubber bumper, and spill-resistant keyboard.

• Military-grade MIL-STD-810G durability
• All-day battery life
• Full connectivity with two USB Type-C ports
• 180-degree hinge for stress-free sharing
• Easy-to-service modular construction

EXPERTBOOK P2451

P2451FA-XS51 / P2451FA-YS33

Delivering all-round versatile features that teachers and students can use to create and collaborate.

• Immersive NanoEdge display
• Comprehensive connections
• Rock-solid construction
• 180-degree lay-flat hinge
• Safe and secure features to protect your privacy

COMPUTING SOLUTIONS | Mobile Devices
100E CHROMEBOOK™

100e Chromebook
Meet the 100e Chromebook! A powerful, portable PC that brings Google Classroom, Google Workspace for Education, and today’s most popular education apps to the fingertips of students and educators.

- Chrome OS™
- Intel® GLKR
- 4GB RAM
- 32GB eMMC
- Up to 10 hours of battery life

300E CHROMEBOOK™

300e Chromebook
With its 10-point multi-touch display, the 300e is a true hands-on learning device. Not only can students use the touch screen to take tests, draw and play games, they can also maneuver it in to four different positions, making it the ideal tool for lesson planning, note-taking and engaging with favorite education apps.

- Intel® Celeron® N4100 Processor
- Windows 10
- 4GB LPDDR4 3200 MHz
- 64GB eMMC
- Up to 8 hours of battery life

500E CHROMEBOOK™

500e Chromebook
Powerful, portable and packed with premium features, the 500e brings the “class” to every classroom. In addition to its Corning® Gorilla® Glass 3 HD touch screen, the 500e comes paired with an electromagnetic resonance (EMR) pen for a smoother “real pen” experience.

- Chrome OS™
- Intel® GLKR
- 4GB RAM
- 2GB eMMC
- Up to 10 hours of battery life

14W GEN 2

14W Gen 2
The Lenovo 14W Gen 2 features a durable yet lightweight design, convenient new connectivity options, like Wi-Fi 6 and HDMI, and an easy-to-use Windows interface.

- AMD® 3015e processor
- Up to Windows 10 Pro
- Up to 8GB DDR4
- Up to 128GB eMMC or 256GB M.2 SSD
- Up to 10 hours of battery life

100E WINDOWS

100e Windows
A power-packed performer, the 100e notebook is the perfect choice for students. Easy on the wallet and built rugged, this laptop can withstand everyday bumps and drops and is equipped with a spill-proof anti-peel keyboard.

- Intel® Celeron® N4000 Processor
- Windows 10
- 4GB LPDDR4
- 64GB eMMC
- Up to 10 hours of battery life

300E WINDOWS

300e Windows
The 300e Windows notebook is a rugged, affordable 11.6” laptop with an Intel® processor, Windows OS, ActivePen support and a reinforced, lightweight and slim design.

- Intel® Celeron® N4100 Processor
- Windows 10
- 4GB LPDDR4 3200 MHz
- 64GB eMMC
- Up to 8 hours of battery life

SCUV30 UV-C LIGHT CHARGING CART

SCUV30

With millions of students taking part in remote and hybrid learning, it’s critical that your school has devices ready to go, and that they’re sanitized between uses. The Trox SCUV30 UV-C Charge Cart is designed to disinfect, store and charge your devices in one compact package!

• Fits most devices up to 14”*
• UV-C light for disinfection
• Compact and mobile
• Cord winder and cable clips for easy power management
• Front and rear doors for easy access

SC33 SMART CHARGING CART

SC33

The Trox SC33 Smart Charging Cart is ideal for larger classrooms. The unit is practical and compact, with slide-out shelves that make placing and removing devices easier and safer. Holding up to 33 devices, the SC33 uses the latest smart charge technology to ensure the quickest charge possible.

• Fits most devices up to 14”*
• Slide-out shelves make storing and charging easy
• Compact and mobile – move anywhere with ease
• Hassle-free cable and power management system
• Easy AC adaptor accommodation

EC32S ECONOMY CHARGING CART

EC32S

Looking for a simple, cost-effective smart charging cart that can store and charge a variety of devices? The Trox EC32S Economy Charging Cart is designed for efficiency in the classroom.

• Fits most devices up to 15”*
• Compact and mobile – move anywhere with ease
• Hassle-free cable and power management system
• Easy AC adaptor accommodation
• 3-point door locking system for security

CC14 CHARGING CABINET

CC14

The Trox CC14 Charging Cabinet is specifically designed for use in K-12 schools. Its user-friendly, compact design takes up little space while securely storing and charging up to 14 devices at a time.

• Flexible footprint – mount, stack or store
• Hassle-free cable management system
• Easy AC adaptor accommodation
• 3-point door locking system for security
• Angled outlets fit any adapter style
**ADAPT4 USB-C WITH ACTIVE CHARGE UPGRADE**

**ADAPT4-ACTIV**

The Active Charge upgrade kit provides a better way to keep devices charged up with portable power access. In classrooms, it enables students to keep learning regardless of the surrounding infrastructure and increases the battery runtime of older devices. Easy to implement and includes all essential items.

- Reduce disruptions to instruction time with four portable power banks
- Implement at-the-desk charging without the cable clutter of extension cords
- Available with adapter cables for greater compatibility
- Multi-use charging station can hold devices up to 14”
- The Adapt4 USB-C Charging Station provides efficient USB-C power delivery

---

**ADAPT4 USB-C CHARGING STATION**

**ADAPT4-USBC**

Reduce disruptions caused by uncharged devices with the Adapt4 USB-C PD Charging Station. Connect devices up to 14” for an efficient charge up to 45W.

- Provides adapter-free charging, especially useful in 1:1 take-home settings
- All-in-one charging solution compatible with notebooks, tablets or Chromebooks
- Quick-Sense USB-C PD intelligently delivers a fast and balanced charge
- Portable 4-device stations enable easy implementation of charging space as needed
- Can be used for openly accessible charging and device security

---

**FLEX-SHARE CHARGING STATION**

**CSE-1615**

The Flex-Share is a 16-device modular station, great for use individually as a wall-mounted or tabletop solution, stacked to save space or with casters for easy maneuverability.

- Navigate technology transitions with ease by reconfiguring as needed
- Features an enclosed design thatguards devices against the environment
- Front accessible cable management keeps cords stored away
- Provides charging for notebooks, tablets and Chromebooks up to 14”
- Two-unit stacking/mobility bundle available to achieve a 32-device mobile solution

---

**ESSENTIAL 16 CHARGING STATION**

**CS-1610**

The Essential 16 is an affordable and adjustable charging station that helps maximize valuable classroom space. It’s compact and lightweight with durable steel construction.

- Most budget-friendly charging station for up to 16 devices
- Great for tabletop use or wall-mounted to save space
- Open design provides security and a clear view of devices
- Front accessible cable management keeps cords stored away until needed
- Available in multiple colors: red, purple, green and orange

---

**SERVICE PLUS INTELLIGENT CART**

**MD-5150-SP**

Designed to help schools achieve their total cart solution with greater ease, the Service Plus Cart simplifies deployments by bundling the cart and services.

- Intelligent Charging System provides a balanced charge
- Multiple service levels help save time and resources on deployments
- Device bays are adjustable to 28, 30, or 40-device configurations
- Features durable, all-steel construction with easily replaceable parts
- Streamlined cable management system keeps cables neat and organized
### AVERCHARGE X18IS

**CHRGX18IS**

18 Bay Student Device Charging Cart with UV Sanitization.
- UV sanitization kills 99.99% of common microbials
- Charges and sanitizes up to 18 devices
- Removable and adjustable slot dividers
- Intelligent charging prevents over or under charge
- Safely stops sanitization if doors are opened

### AVERCHARGE B30

**CHRGEB30**

30 Bay Economy Student Device Charging Cart.
- Safely charges up to 30 devices
- Compact and easily portable
- Simultaneous charging management
- Simple cable management

### AVERCHARGE E36C+

**CHRG36C+**

36 Bay Student Device Charging Cart.
- Safely charges up to 36 devices
- Fits tablets or laptops up to 15”
- Intelligent charging
- Simple cable management

### AVERCHARGE X30I

**CHRGX30I**

30 Bay Student Device Charging Cart.
- Safely charges up to 30 devices
- Patented cable management
- Intelligent charging
- Small footprint
- Lockable front and back doors

### EPIC CARTS

**LNC14-10410, LNC14-10411**

Charge, store, secure and transport up to 24 or 36 devices in one affordable cart — now that’s EPIC.
- Lifetime warranty on the main frame and electrical
- Future proof, lightweight, space-saving design
- ECO Smart Charging
- Can accommodate any device up to 14” screen size
- Store items on top

### FUYL TOWER 5 OR 15

**10213, 10208**

A complete hardware and software solution to efficiently charge, store, secure and manage workflow for phones, tablets, laptops and other mobile devices.
- Set up and manage who is allowed access to bays and towers
- Manage multiple towers from one centralized, web-based portal
- Securely charge and store devices so they’re always ready for use
- Access compartments via RFID or PIN code
- Integrate LocknCharge Cloud with external systems

### MOOREPOWER TOWER

**27735**

Provides instant AC outlet and USB charging access to multiple users.
- Tower includes two AC outlets and two USB outlets per side, for a total of eight each
- Four dual-wheel casters, two locking
- Durable powder-coated steel frame includes 13.5’ power cable
CASE LOGIC VIGIL 11.6” CHROMEBOOK™
WORK-IN-CASE WITH POCKET

3203771
A hard-shell laptop work-in case with protective thick padding, molded ridges for airflow and accessory storage.

- Slim, molded EVA work-in case fits 11.6” Chromebooks™
- Accessory pocket stores cords and other small daily items

Make Learning Unbreakable

Thousands of schools and districts rely on Absolute® to ensure student data privacy with an unbreakable, self-healing connection to every endpoint — even off-network.

Absolute's patented Persistence® technology is already embedded in the firmware of more than half a billion devices. Chances are, you already have it — all you need to do is activate it.

“Web Usage gives us insight to how students are using in-class screen time and allows us to update our web filters to guide them back to productive work. We also enjoyed the fact that we can ensure all of our devices are up-to-date.”
— Eric Ramos, Chief Technology Officer, Duarte, Unified School District

Never mark your devices absent again.
Total visibility means you can geolocate any device, anytime. It allows you to respond to incidents and alerts promptly. It gives you the power to reach, freeze and wipe missing laptops — on or off your network.

Save your IT teams hours of homework.
Pre-built commands make remote installation, configuration, and managing Windows updates a breeze. Maintain endpoint health at scale — even off-network — using automated workflows. No coding skills required.

Know if they're streaming, surfing, or studying.
Detailed usage reports show the amount of time spent using each device — and how much active time is spent on approved educational resources. If web filters and controls are being bypassed, you'll know.

Huddly Canvas
Make the most out of physical whiteboards in virtual spaces.

Huddly Canvas is a user-friendly, whiteboard, AI camera that stimulates active learning in virtual environments. Share ideas, engage students, and spark active conversation— even when you’re apart.

- AI-enhanced content capture
- Automatic white balance and color correction
- Integrated with Microsoft Teams Rooms and Zoom Rooms

Huddly IQ
Ensure that everyone is seen and heard.

Huddly IQ takes students and teachers beyond the classroom. Combining a compact, 150° ultra-wide-angle view camera, and groundbreaking AI capabilities, Huddly IQ fits perfectly within flexible learning spaces. Easy to use, Huddly IQ is USB-powered and compatible with any platform.

- Huddly IQ’s genius framing feature will allow the camera to follow the teacher in the classroom.
- IQ’s 150° wide-angle lens and studio-quality embedded microphone array deliver an immersive video meeting experience giving everyone a voice and seat at the table.
With remote and hybrid learning models, educators and IT staff have a challenging job to facilitate equitable learning experiences for students both in the classroom and at home.

The right AV solution facilitates easy collaboration, participation and engagement.

To learn more, read "Finding the Best AV Solutions to Engage On-site and Remote Learners," and find additional resources at trox.com/resources.

Enhance your classrooms with the following offerings:

**Displays**
Deliver engaging lessons with clear, easy-to-use displays that students can see wherever they are in the classroom. Also, share displays through your LMS with students at home.

**Projectors**
Maximize teaching flexibility with brilliant projectors that can connect to various device types.

**Mounts**
Mount your monitors, displays, cameras and projectors to amplify the learning experience and enable those at home to feel like they’re in the classroom.

**Document Cameras**
Capture images in real time and magnify learning materials to enhance in-classroom experiences for all students.

**Control Systems**
Manage AV systems directly or remotely across your district with plug-and-play control systems.

**Peripherals & Accessories**
Complement your AV set up with useful peripherals and accessories, including cables, carts, docking stations and more.

**Installation Services**
Trox provides installation services to support IT staffs in outfitting classrooms. Our certified technicians have years of experience in a wide range of projects, from control room design to amplification systems to auditorium and video wall installations. Contact us to find out more.
**NEWLINE RS+ SERIES**

**TT-6519RS**

Bring your lessons to life with the RS+. Interactive flat panels keep students involved in the classroom. The RS+ lets you interact your way and empowers students to actively engage in their learning.

- Add a camera for more engaging distance learning
- Connect with any device and use any software
- Wireless casting, cloud storage access, remote management and more!
- 4K vivid display with a smooth, superior touch experience
- Impressive Android 8.0 OS runs at your pace

**NEWLINE FLEX**

**FLEX**

Start class instantly by plugging your laptop into Flex, an all-in-one 27” touch monitor with built-in cameras and mics. Stay connected to students from anywhere.

- Plug and play design powers your laptop through USB-C connection
- Built-in adjustable 4K camera and 8-mic array with echo cancellation
- Adjustable screen angle for smoother, more comfortable writing
- Use your favorite software - Flex lets you interact your way
- Capacitive touch screen includes palm rejection for natural writing

**INTERACTIVE DIGITAL BOARD 65TR3BF**

**65TR3BF**

The TR3BF Series supports dual pen & multi-touch functions, providing accurate drawing and touch quality.

- Genuine touch & writing experience
- Easy connection and sharing
- User-friendly experience
- Superior picture quality
- Palm erasing capability
PROCOLOR 3 (65’, 75’, 86’)

ProColor 653U+, ProColor 753U+, ProColor 863U+

ProColor 3 interactive flat panel displays give teachers and students a touch-driven experience that boosts student motivation and engagement and enhances class discussions.

- 20-touchpoint ultra-high definition 4K display for brilliant and clear images
- 10 dual-touch and gestures to drive collaborative learning

- MimioStudio classroom software included for interactive lesson creation and delivery
- Centralized management of displays via cloud-based Network Device Management System

6000K+ PANEL

CTI-6065K+UH20, CTI-6075K+UH20, CTI-6086K+UH20

Clear Touch’s newly released K+ Interactive Panel is groundbreaking educational technology. Collaboration between teachers and students is easy with twenty points of touch and our content-packed educational software. The K+ Series includes a built-in soundbar and subwoofer, WiFi module, a USB-C cable, and a wall mount with pre-installed brackets.

- Dual ethernet port offers quick connectivity
- 178° viewing angle
- All-encompassing USB-C cable with audio, video, touch, and power
- Android 9.0 processor is our quickest processor yet
- Available in 65”, 75” and 86” sizing

700043XE & MINI CONVERTIBLE STAND

CTI-7043XE-UH20

The all-new 43” 7000XE Series Interactive Panel boasts PCAP technology for superior multi-touch control. This model is made smaller to make interactive learning safer and more accessible for younger students. The Mini Convertible Stand has been designed to support the 43” 7000XE Series Interactive Panel.

- Capacitive panel creates a high-definition 4K viewing experience
- Allows for 10 writing and 20 touch points
- USB-C cable (audio, video, touch & power)
- Adjustable stand height and angle
- Anti-collision sensor and precision lift
eGLASS
HCEG-35, HCEG50

eGlass is an illuminated glass writing board with an integrated camera that captures the teacher’s face and glowing writing in the same image, making it an ideal student engagement solution for distance, hybrid, and traditional classroom teaching.

- Integrated lighting gives ink a vivid glow.
- Built-in camera flips the image so writing reads correctly
- Simple USB connection to PC, Mac, or Chromebook
- Works with Zoom, Microsoft Teams, and other video conferencing platforms
- Free software included

PILOT X DIGITAL TEACHING STATION
HCPX

Pilot X is the ultimate hybrid teaching solution, combining a powerful tablet computer with a fold-out 4K document camera, all integrated on a wireless podium.

- 13" touchscreen tablet computer, powered by Intel®
- Fold-out 4K document camera
- Height and tilt adjustable wireless podium
- Wireless HDMI casting system included
- Battery-powered for all-day lesson recording

ELMO BOARD INTERACTIVE FLAT PANEL DISPLAY

75" - EL75R1, 86" - EL86R1

The simplest Interactive Flat Panel on the market, ELMO Board is a user-friendly classroom solution that makes teachers’ lives easier and improves how students learn.

- 4K Ultra HD resolution with 20 points of touch
- Includes the new ELMO classroom software
- Seamlessly connects to any ELMO document camera
- Includes ELMO’s Easy Controller, a physical quick access control panel
- Available in 75" and 86"

DA-LITE IDEA™ PANORAMIC SCREEN

Part Numbers vary by size and format

IDEA Screens are magnetic and can be used with an interactive ultra-short-throw projector as a touch screen or whiteboard with dry-erase markers.

- Three-panel design to cover large walls
- Center panel formatted for projection, sides for collaborative writing space
- 12', 14', 16' widths in 46", 50", 53" and 60" heights
55\" 0.44MM EVEN BEZEL VIDEO WALL

55SVH7E
LG’s 55SVH7E is the world’s narrowest 0.44mm even bezel video wall.
- Vivid and dynamic picture quality
- Higher and wide viewing angle
- IPS panel technology
- Image gap reduction
- Uniform color expression

60UL3E4
The UL3E series delivers Ultra HD content in vivid colors and with fine details on a large display.
- Compatibility with Crestron and Extron
- Vivid color details with Ultra HD
- Content management without a PC
- Compatibility with Cisco Spark Room kits
- Real-time remote monitoring

43\" UHD COMMERCIAL TV

43UT640S
The UT640S series is specifically designed for diverse business environments.
- Compatibility with AV control systems and Display Power Management Signaling
- Smart Connectivity and a simple user friendly interface
- UHD picture quality
- Embedded content and group management
- SuperSign Control

IPS TV SIGNAGE US340C SERIES

50US340C
With Ultra HD resolution, the US340C series makes more vivid colors and more realistic details.
- Intense colors and wide viewing angles
- IPS panel technology
- Customizable screen
- Easy management
- Non Wi-Fi model available
VUE

The Clear Digital Vue Video Wall is a large-scale LED display with a high-resolution screen, adjustable brightness and deep contrast. Its vivid color and exquisite detail is sure to wow any audience.

- Field serviceable with removable “tiles” that click into place
- 32GB storage
- Only digital signage product offering protective PixelGuard™
- Four available sizes from 110” to 220”
- Clear Touch Collage™ software comes standard in all sizes

newline

NEWLINE NT SERIES

EPR7A085NT-000

Streamline classroom success with the NT Series, a vivid 4K non-touch display from Newline. Focus on just the tools you need to keep students engaged.

- Beautiful 4K resolution brings your lessons to life
- Non-touch display - just connect to a computer or laptop
- Connect with any device - compatible with Windows, Mac, Android and Chrome
- Impressive Android 8.0 OS runs at your pace
- Wireless casting, cloud storage access, remote management and more!

SHARP/NEC

NEC MULTISYNC ME551

ME551

Create pixel-perfect imagery at a cost-conscious price point with the new fully commercial NEC ME Series large format displays.

- NEC’s MultiSync ME Series Offers Modular Expandability with SDM and Raspberry Pi
- Bidirectional and full external control
- Accepts Intel® Smart Display Module
- Full 3-year warranty
- Cisco Certified Display

Other Valued Trox Partners

GET A QUOTE | www.Trox.com/Quote
LFC-L

The LFC-L is a fast setup, large format nesting mobile cart for displays up to 300 lbs.

- Built for displays and touch screens up to 98”
- Nest multiple carts with its open design to save space
- Adjustable viewing height
- Full setup takes less than 10 minutes
- All components ship in one box

PDS-PLUS

The PDS-PLUS is a low-profile, lightweight, OSHPD approved universal projector mount with four interchangeable legs to reach both shorter and wider mounting points.

- Universal projector mount
- Mates with standard size drop pipe
- Weighs under 5 lbs
- Includes Lock-It™ security hardware

PBC-FCTA-QL

The PBC-FCTA-QL includes a false ceiling adapter that fits into half of a standard 2x2 ceiling tile and a universal projector mount with quick disconnect for maintenance.

- Kit includes false ceiling adapter, projector mount, quick lock cables
- Ceiling adapter replaces half of standard 2x2 ceiling tile
- Projector mount holds up to 40 lbs
- Flexible projector positioning with dual-joint support arms
- Quick disconnect on mount for easy maintenance

LMVLF

The LMVLF is the easy servicing wall mount for displays and touchscreens up to 300 lbs with smooth press and release capability.

- Heavy duty pneumatic assist to ease the overall movement
- Easiest serviceable mount for large format displays
- Scissor design adds additional stability upon mount extension
- X, Y and Z adjustment
- Adapter available for VESA larger than 800×800

GB-AVSTOR5

The GB-AVSTOR5 is a plenum rated GearBox™ for storage and cable management. Easily connect a projector using the built in-power source and thread hole.

- Adjustable mounting platform with lateral shift
- Five integrated power receptacles
- External power cut-off switch
- Removable equipment mounting tray
- Intertek ETL listed and conforms to UL Standard 2043
**BALANCEBOX® MOBILE STAND MIX®**

#481A71001 + #481A70

BalanceBox® Mobile Stand Mix® is designed for large displays and interactive flat panels. Use as a 'fixed height' mobile cart (various height options) or upgrade to a height adjustable stand by simply adding a BalanceBox® 400 mount: 15.75” of height adjustment with just a light touch of your fingertip.

- Supports (interactive) displays up to 86”
- Fixed height cart solution: #481A71001 + #481A70
- Height adjustable solution: add BalanceBox® 400 mount (#480A13, #480A12, or #480A14)
- Full assembly in less than 10 minutes
- UL 60950-1 & CE provides the highest level of safety

**BALANCEBOX® 400 HEIGHT ADJUSTABLE WALL MOUNT**

#480A13 Light Duty / #480A12 Medium Duty / #480A14 Heavy Duty

BalanceBox® 400 is the perfect solution to move your (interactive) flat panel up and down with just a light touch of your fingertip. Requires BalanceBox® 400 Flatscreen/VESA interface #481A70.

- Give everyone (small/tall) easy access to touch screen technology
- 15.75” of height adjustment, supports displays up to 86”, 197 lbs
- Unique worldwide patented spring tension technology system
- Manually operated; no electrical connection needed
- UL 60950-1 & CE: provides the highest level of safety

**E·BOX® MOTORIZED HEIGHT ADJUSTABLE MOBILE STAND**

487A01

Best-in-class motorized height adjustable mobile cart for large (interactive) flat panels. Give everyone — whether small or tall — access to touch screen technology.

- Supports large displays up to 86” and 254 lbs
- Provides 26” of smooth vertical lift via included wired control
- Anti-collision safety feature: system stops when it senses an obstruction
- 4” Commercial grade casters, 2 w/brake
- UL 962 & CE: provides the highest level of safety

**BalancedBox® 650 WINX® 4B 70/75 AND 80/86**

70-75” panels: #481A82 (1) + #988B83 (2) / 80-86” panels: #481A83 (1) + #988B84 (2)

Combine your flat panel with whiteboards! Move your screen and whiteboards up/down with just a light touch of your fingertip (requires BalanceBox® 650 mount).

- Give everyone (small/tall) easy access to screen and whiteboards
- 25.60” of height adjustment, supports (interactive) displays up to 86”, 276 lbs
- Unique worldwide patented spring tension technology system
- Highest quality whiteboards: magnetic, glossy white enameled steel
- Whiteboards can pivot, enabling both sides to be used

**E·BOX® MOTORIZED HEIGHT ADJUSTABLE TILT TABLE STAND**

487A03

Best-in-class motorized tilt table stand for large (interactive) flat panels. Give everyone — whether small or tall — access to touch screen technology.

- Supports large displays up to 75” and 220 lbs
- Provides 26” of smooth vertical lift via wired control
- Anti-collision safety feature: system stops when it senses an obstruction
- 4” Commercial grade casters, 2 w/brake
- UL 962 & CE: provides the highest level of safety
**ESSENTIALS MOBILE CLEAR DIVIDER**

62541-CLEAR (standard), 62506-CLEAR (large)

The Essentials Mobile clear divider provides mobile and see through protection for your guests, employees, students and more.

- Standard panel measures 54”H x 38.5”W
- Large panel measures 54”H x 68”W
- Wide base design for stability and heavy duty locking casters for easy mobility
- SCS Indoor Advantage Gold certified

**ITEACH SPIDER FLAT PANEL CART**

37675

A stylish solution for your mobile flat panel needs.

- 18” of electric height adjustment
- Mounting bracket can be attached at six different heights
- Supports displays up to 100” and 250 lbs

**LARGE ELECTRIC HEIGHT ADJUSTABLE FLAT PANEL CART**

LPE1U

Ideal for interactive touch displays to create better accessibility to technology in the classroom.

- Easy to raise and lower the display
- Kid-friendly – safety feature immediately stops and reverses display motion if necessary
- Available as floor support mount or mobile cart
- Accommodates displays between 42 - 86” up to 200 lbs

**ITEACH ELECTRIC HEIGHT ADJUSTABLE FLAT PANEL WALL MOUNT**

37745

Capture your audience's attention with the iTeach flat panel mount, providing a modern solution to your flat panel mounting needs.

- 18” of electric height adjustment
- Bracket supports 800X600 VESA and up to 250 lbs
- Black powder-coat finish is attractive and durable
- SCS Indoor Advantage Gold certified

**STANDS**

Clear Touch offers a wide variety of stands to fit your specific panel needs; from our versatile wall mount to electrical-powered mobile stands. Our stands are designed to increase your panel's accessibility and interactivity.

- Convertible stands offer adjustable height and angle
- Convertible and mobile stands have an accessible C-shaped base
- Convertible, mobile, and adjustable stands have an electric motor
- Fixed mobile stand and wall mount support up to 300 lbs
- Electric-powered stands have an anti-collision sensor and precision lift

**CLEAR DIGITAL GEL SANITIZER STATION**

CDS-GELDS-22NT

The Clear Digital Gel™ Sanitizer Station is a hands-free hand sanitizer dispenser with digital signage to display a crisp, clear message to a public audience. The dispenser is designed with cleanliness and breakthrough messaging in mind to meet schools’ needs during COVID-19.

- Brilliant 21.5” LED display
- Large, refillable sanitizer reservoir
- Able to hang on the wall or stand
- Sho Content Management Player included
- Notification when running low on sanitizer
In partnership with TROX, ViewSonic delivers a complete projection solution for any school or district. When you combine any of ViewSonic’s laser projectors with a ViewSonic VBS100-A myViewBoard™ Box, you’ll have access to the complete myViewBoard ecosystem.

The myViewBoard ecosystem delivers an interactive learning experience that offers educators easy access to tools, assignments and documents in one place, with the added bonus of having an open, agnostic, and secure digital whiteboard at their fingertips.
BRIGHTLINK® 1485Fi 1080p 3LCD INTERACTIVE LASER DISPLAY

V11H919520
Create engaging and collaborative learning environments with the BrightLink 1485Fi 1080p 3LCD interactive laser display. Providing 5,000 lumens of color and white brightness and a virtually maintenance-free 20,000-hour laser light source with no lamps, this reliable, ultra bright interactive display supports easy reading, instruction and communication.

- 5,000 lumens color/white brightness
- 1080p Full HD laser display
- Project 100", 16:9 & 120", 16:6 images
- 20,000-hour laser light source; no lamps
- Image alignment and PC-free interactivity

PRO L1070UNL 3LCD LASER PROJECTOR

V11H940920
The powerful Pro L1070UNL, part of Epson’s most compact interchangeable-lens laser projector series, offers 3-chip 3LCD technology and native WUXGA resolution with 4K Enhancement Technology. Delivering extraordinary color brightness, Epson 3LCD projectors ensure brilliant images. Providing 7,000 lumens of color brightness and 7,000 lumens of white brightness.

- 7,000 lumens color/white brightness
- Native WUXGA with 4K Enhancement Technology
- 3-chip 3LCD technology
- Laser light source — up to 20,000 hours of use
- 11 optional interchangeable lenses

BRIGHTLINK® 725Wi WXGA 3LCD INTERACTIVE LASER DISPLAY

V11H988520
This ultra bright WXGA interactive display enhances classroom collaboration with large, true-to-life images up to 100", built-in wireless and engaging digital whiteboard features.

- 4,000 lumens of color/white brightness
- WXGA display; project up to 100" diagonal
- 20,000-hour laser light source; no lamps
- Up to 85 percent more interactive space vs. 75" flat panel
- Time-saving installation

POWERLITE® L200SW WIRELESS WXGA 3LCD SHORT-THROW LASER DISPLAY

V11H993020
Built with convenience in mind, this ultra bright WXGA display offers a virtually maintenance-free, 20,000-hour laser light source and built-in 5 GHz wireless.

- 3,800 lumens color/white brightness
- 16:10 WXGA resolution for images up to 120"
- 20,000-hour laser light source; no lamps
- Up to 2.5 times larger image than 75" flat panels
- Instant On laser light source

Create engaging and collaborative learning environments with the BrightLink 1485Fi 1080p 3LCD interactive laser display. Providing 5,000 lumens of color and white brightness and a virtually maintenance-free 20,000-hour laser light source with no lamps, this reliable, ultra bright interactive display supports easy reading, instruction and communication.

- 3,800 lumens color/white brightness
- 16:10 WXGA resolution for images up to 120"
- 20,000-hour laser light source; no lamps
- Up to 2.5 times larger image than 75" flat panels
- Instant On laser light source

1. Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
2. No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first use. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m3 of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period.
4. Pixel shifting technology achieves Full HD resolution on screen.
5. 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.
Deliver Learning That Sticks

Epson® Laser Displays go where flat panels can’t

Versatile – deliver immersive images without compromising whiteboard space
Engaging – and with BrightLink®, interactive up to 120° on virtually any wall
Affordable – BrightLink offers lowest cost image per sq. in. vs. interactive flat panels¹
Reliable – a virtually maintenance-free 20,000-hour laser light source with no lamps²
Connectable – seamlessly integrate with Chrome™, Mac®, Windows®, Android™ and iOS®
Proven – 10 million+ students learn on Epson displays every day

LASER-FOCUSED LEARNING

Projected images Immortalized.
¹ Versus comparable interactive flat panel display measuring to 2x or more; above THX®/Avolusion data for 2020-21 North America. ² Estimated maintenance for the light source up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration withstand exposure of CIE 12.10 to 12.90, excluding particulate matter. Time series depending on usage conditions and environment. Replacement or parts other than the light source may be required in a shorter period.

TT-12W VISUAL PRESENTER

1379
Designed to enhance hands-on learning and the use of interactive curriculum in the classroom, the TT-12W provides the quality and convenience users know and love.

- 1080p full HD resolution at 30fps
- 192x total zoom (12x optical zoom / 16x digital zoom)
- Built-in Miracast wireless display connectivity
- Wireless and wired internet connectivity
- Powered by Android - AR app capable

MX-P3 VISUAL PRESENTER

1450
Our newest True 4K portable presenter offers 16x digital zoom to capture lessons in unbeatable quality with every connection option you need.

- True Ultra HD 4K resolution (max. 30fps)
- 16x digital zoom
- USB, HDMI, and VGA outputs
- Built-in microphone
- Great for remote or hybrid teaching

OX-1 VISUAL PRESENTER

1433
The perfect document camera for distance learning. The OX-1 provides the highest quality image for an extremely economical price.

- 1080p full HD resolution
- 8x digital zoom (via software)
- Built-in microphone
- Simple plug and play operation
- Lightweight and portable

MA-1 STEM-CAM

1385
Intuitively designed for the most immersive STEM experience, the new ELMO STEM-CAM opens up a world of endless learning possibilities in the K-12 classroom.

- Powered by Android
- 1080p full HD resolution at 30fps
- 16x digital zoom
- Built-in Miracast wireless display connectivity and rechargeable battery
- 5” multi-touch screen for navigation

MO-2 STEM-CAM

1386
Intuitively designed for the most immersive STEM experience, the new ELMO STEM-CAM opens up a world of endless learning possibilities in the K-12 classroom.

- Powered by Android
- 1080p full HD resolution at 30fps
- 16x digital zoom
- Built-in Miracast wireless display connectivity and rechargeable battery
- Wireless and wired Internet connectivity
**MIMIOVIEW DOCUMENT CAMERA**

**MIMIOVIEW 350U**  
MimioView document camera boosts interactive activities with 4K pictures and live video. Project detailed images of flat and dimensional objects to displays for lively discussions.

- One-button autofocus
- Plug into a USB PC port for power and data
- Display, freeze, annotate and save all visual content
- Includes MimioStudio™ classroom software for building interactive lessons and activities

**AVERVISION M11-8M**

**VISIM118M**  
AVERVision M11-8M Distance Learning Document Camera  
- Compact and portable for home or classroom  
- 8MP camera for crystal clear video  
- Compatible with distance learning platforms  
- Use as a doc cam or HD webcam  
- USB and HDMI connectivity

**AVERVISION U50**

**VISIONU50**  
AVerVision U50 Distance Learning Document Camera  
- Flexible and portable  
- 8MP camera for clear video  
- Compatible with distance learning platforms  
- Budget friendly  
- Use as a doc cam or HD webcam

**AVERVISION F17-8M**

**VISIF178M**  
AVerVision F17-8M Distance Learning Document Camera  
- Flexible and portable  
- 8MP camera for crystal clear video  
- HDMI connectivity  
- Use as a doc cam or HD webcam

**SOLO 8PLUS DOCUMENT CAMERA**

**HCS8PLUS**  
Solo 8Plus is a powerful USB document camera that provides unprecedented image clarity and powerful software. A perfect tool for distance, hybrid or in-class learning.

- Single-cable USB 3.0 connection to PC, Mac, Chromebook  
- 13MP camera sensor for 4K clarity  
- 4K @ 30fps video  
- 480x zoom, included patented lossless ASR zoom  
- Software included with Zoom integration

**DUO HDMI + USB DOCUMENT CAMERA**

**HCD**  
Duo is a powerful camera simultaneously outputs USB to your computer and HDMI to your display.

- 1080p @30fps USB output  
- 4K @30fps HDMI output  
- 12MP camera sensor for stunning clarity  
- Included software with Zoom integration  
- Compatible with PC, Mac and Chromebook

**SOLO SPARK II DOCUMENT CAMERA**

**HCSII**  
If you’re looking for Solo 8Plus quality in a budget-friendly package, Solo Spark II is the USB document camera for you.

- Single-cable USB 3.0 connection to PC, Mac, Chromebook  
- 8MP camera sensor for HD clarity  
- 1080p @30fps video  
- 80x zoom (8x digital, 10x mechanical)  
- Software included with Zoom integration

JUNO
1000-00058
Juno is an all-in-one classroom audio system with amazing digital sound quality, time-saving lesson capture and future connectivity.
- Digital feedback suppression
- Integrated Bluetooth® receiver
- Voice activated control and automated lesson capture
- Scalable into a campus-wide communication system
- Supports up to 4 microphones

EZROOM TRIO ALERT
1000-00133
Trio Alert is an all-in-one classroom media solution with premium sound quality and complete scalability.
- Digital feedback suppression
- Integrated HDMI with audio extraction
- Voice activated control
- Programmable, multi-colored LED beacon

PRO DIGITAL
1000-00145
Pro Digital fills any classroom with sound, to ensure that the listener hears every nuance no matter where they are in the classroom.
- Digital platform optimizes sound quality, power use and suppresses feedback
- Audio inputs and output allow integration with other AV equipment
- Light and comfortable microphone design
- Prominent, easy-to-find microphone mute button
- Optional CMBT Bluetooth® audio receiver to enable wireless connectivity

CONDUCTOR
FR-ADMIN
Conductor gives you the freedom and flexibility to efficiently manage daily school-wide audio communications, bell schedules and emergency communications from one location.
- Easily adjust bell schedules for standard or irregular days
- Clear IP audio communications to all school end points
- Flexible zones for efficient school-wide communications
- Robust emergency communications capability with audio, visual and mass notification

GALIL 6-C
82-500678
6.5-Inch, 2-Way Closed-Back Ceiling Speakers.
- 2-way coaxial speaker
- 6.5” polypropylene cone woofer
- 8Ω impedance
- UL 1480 & 2043 Listed
- Includes 2 speakers (1 pair), ceiling mounting kit, template and user manual

**MIMIOCLARITY CLASSROOM AUDIO SYSTEM**

**MC-AMP-KIT V1.0**

MimioClarity classroom audio system evenly and clearly distributes sound throughout the room. Teachers can use a quieter, natural speaking tone to project without strain.

- Provides clear sound with no wind or boom effects
- Teacher mic has breakaway lanyard for safety
- Easy link feature ensures mic works with in-class amplifier receiver
- Control of MimioStudio, Microsoft Office, Google Classroom with teacher microphone
- MimioClarity can be integrated with existing school audio systems

**WIRELESS TEACHER MICROPHONE SET**

**AW315F**

The wireless classroom microphone set is perfect for hybrid learning with Zoom or Google for Windows or Mac, delivering the teacher’s natural voice with clarity.

- Hands-free design
- Auto pairing with other receivers
- Interference free
- Prevent voice strains and laryngitis
- 50 to 60 ft. operating range

**PA21-EDU BLUETOOTH PA SYSTEM**

**NEW!!** The PA21-EDU Bluetooth PA System enables professional acoustic performance on the move! It is lightweight and user friendly.

- 100W provides 5 hours of playback at maximum volume
- 2 channel UHF wireless microphone system, 2 wireless microphones included
- Features media player with stereo Bluetooth, USB port and mixer
- Equipped with one 10-inch woofer
- 2-year warranty

**BLUETOOTH 80W CLASSROOM SOUNDBAR**

**GS-68C**

This bluetooth soundbar delivers sharp sound across the classroom, and works by itself or seamlessly with an Interactive Flat Panel (IFP).

- Clear and sharp sound across the classroom
- Bluetooth compatible
- Standard wall mounting kit or optional TV mounting kit
- Remote control included

**BLUETOOTH CDR-3916BT MULTIMEDIA BOOMBOX**

**NEW!!** Versatile boombox made of shatterproof ABS plastic for durability, features Bluetooth capabilities, CD, cassette and AM/FM radio.

- Steel grills prevent accidental damage to the recessed speakers
- Wireless streaming from any Bluetooth-enabled device
- CD player features a 20-track programmable memory
- Equipped with a 3.5mm aux-in and 3.5mm headphone jack
- AC or DC operation

**WIRELESS ULTRA-PORTABLE PA SYSTEM**

**PA219**

Wireless Ultra-Portable PA System with 40W max wattage enables music or message to be broadcasted in 500’ range.

- Rugged ABS plastic exterior with comfy handle
- Features SD card slot and USB port, wireless microphone included
- Beefy 5” speaker for loud and clear projection
- Features 1/4” Mic Input and 3.5mm Aux Input
- User friendly and only weighs 4 lbs., 1-year warranty

AV SOLUTIONS

Connectivity

5×2 MATRIX SWITCHER WITH USB AND WIRELESS LINK

AT-OME-MS52W

5×2 matrix switcher with HDMI, USB-C, DisplayPort, and wireless AV inputs, plus HDMI and HDBaseT™ outputs. It features wireless presentation capability and native screen mirroring. The OME-MS52W interfaces with a presenter’s iOS, Android, Mac, Chromebook or Windows device over Wi-Fi, and allows screen mirroring without requiring an app.

- USB-C input for AV, data and device charging
- Native wireless casting for iOS®, Android™, Mac®, Chromebook™ and Windows®
- HDBaseT™ and HDMI outputs with selectable AV switching modes
- 4K/UHD @ 60Hz with 4:4:4 chroma sampling on wired ports

4×2 MATRIX SWITCHER WITH USB

AT-OME-MS42

4×2 matrix switcher with HDMI, USB-C and DisplayPort inputs, plus HDMI and HDBaseT outputs. Features 300-foot (100-meter) HDBaseT extension for 4K/60 4:2:0 video.

- USB-C input for AV, data and device charging
- HDBaseT and HDMI outputs with selectable AV switching modes
- USB 2.0 interfacing and extension up to 330 feet
- 4K/UHD @ 60Hz with 4:4:4 chroma sampling on wired ports
- Selectable 4K to 1080p downscaling

HDBASE TX/RX FOR HDMI WITH USB

AT-OME-EX-KIT

Extender for 4K/60 4:2:0 video, plus embedded audio, control, Ethernet and USB over distances up to 330 feet (100 meters). Ideal for software video conferencing.

- USB 2.0 interfacing and extension up to 330 feet
- 4K/UHD capability @ 60Hz with 4:2:0 chroma subsampling
- Transmitter powered by receiver over HDBaseT
- Also available: AT-OME-EX-KIT-LT (no Ethernet, 70 meter extension)

USB 2.0 EXTENDER KIT OVER CATEGORY CABLE, UP TO 100 METERS

AT-USB-EX100-KIT

High speed USB extender kit supporting USB 2.0 data extension up to 330 feet (100 meters) using a single, cost effective Category-type twisted pair cable.

- USB 2.0 interfacing and extension up to 330 feet
- Route USB between interactive display and the instructor’s laptop
- Transmitter features USB type B and USB type A ports
- Receiver features four USB type A ports

AIRTAME

AIRTAME 2

ATDG2

A wireless screen-sharing device for classrooms and meeting rooms. Connect from any device to any screen, IFP or projector and manage devices remotely through Airtame Cloud. Airtame enables teachers, students and on site guests to wirelessly share from their personal devices on a larger shared screen.

- Present from Windows, Chromebook, macOS, Linux, iOS or Android
- Connect via the Airtame app, or with Miracast, Google Cast or Airplay
- Fullscreen or single window sharing to one or multiple displays
- Maintain control with moderator mode and pin code connect
- Supports WPA2 Enterprise & Ethernet connection
### VP-440X

**Model:** 87-00002090  
**Description:** 18G 4K 5-input presentation switcher/scaler with HDBaseT and HDMI simultaneous display.  
**Features:**  
- HDBaseT reach and direct to display convenience of HDMI  
- Easy installation and operation  
- Smooth switching prevents output glitches  
- Powerful audio processing supports DSP technology  
- Ideal for classrooms, auditoriums, meeting rooms, lecture halls and more

### VIA GO²

**Model:** 87-000190  
**Description:** Compact and secure 4K wireless presentation device for education.  
**Features:**  
- Connect using conventional Wi-Fi and/or LAN  
- Supports Windows™ and Mac™ laptops, Chromebooks™, iOS™ and Android™ mobile operating systems  
- High-quality 4K @ 30Hz video streaming  
- Two participants can present simultaneously  
- Super compact form factor makes for easy and flexible installation

### WP-211T

**Model:** 20-804971195  
**Description:** 2x1 high-performance PoE-powered wall-plate, automatic switcher of 4K HDMI video signals, transmitted over long-reach HDBaseT extension link.  
**Features:**  
- Plug and play with automatic input selection  
- Multi-channel audio switching  
- Reliable PoE (Power over Ethernet)  
- Easy installation and fits into standard 1-gang wall box  
- Ideal for classrooms, huddle rooms and training rooms

### PA-50HZ

**Model:** 13-80477190  
**Description:** PA-50HZ (PA-50Z) is a compact Hi-Z (70V/100V) power amplifier with line-level output, ideal for small and medium-sized meeting spaces and classrooms.  
**Features:**  
- Simple and flexible speaker array installation  
- Line level output for cascading, recording or conferencing scenarios  
- Small form factor and convection cooling for simple installation  
- 50W of power into a 70V or 100V line  
- Ideal for small to medium-sized classrooms and educational facilities

### VS-411X

**Model:** 20-80548090  
**Description:** 4x1 automatic switcher for 4K HDR, HDMI video signals. Automatically switches according to the selected switching scheme based on active video signal detection.  
**Features:**  
- Plug and play auto switcher  
- Multi-channel audio switching  
- Simple switching operation with local or remote contact closure buttons  
- Cost-effective maintenance with status LED indicators  
- Easy installation with compact DemiTOOLS® fan-less enclosure

### CA-USB3/AAE

**Model:** 96-02160XX  
**Description:** CA-USB3/AAE is an active extender cable designed to extend USB 3.0 signals up to 50 ft.  
**Features:**  
- True plug and play — no additional drivers needed  
- No external power — pulls power from the USB source device  
- Buffers incoming and outgoing signal  
- Active electronics extend signal without loss or potential performance issues  
- Available in lengths from 10ft to 50ft

### CP-AOCH/60F

**Model:** 97-04161XXX  
**Description:** CP-AOCH/60F is an innovative ACTIVE optical HDMI cable for 4K signals up to 295ft. CP-AOCH/60F cables are thinner, lighter and more flexible than copper or even standard optical cables.  
**Features:**  
- EDID and HDCP Support with no signal attenuation  
- Reduced risk of EMI & RFI interference  
- Ideal solution for maximizing signal integrity in critical AV installations  
- Available in lengths from 33 ft to 295 ft  
- Plenum-Rated 18Gbps 4K@60  
- Pull-Resistant HDMI Connectors

### C2G USB-C DUAL DISPLAY DOCKING STATION

**Model:** 84439  
**Description:** The USB-C 7-in-1 Dual Display MST Docking Station with HDMI, DisplayPort, VGA and Power Delivery connects to USB-C or Thunderbolt™ 3 enabled laptops.  
**Features:**  
- The perfect hybrid dock for your desktop  
- Easily connects two monitors and multiple USB devices  
- 60W USB-C power supply to support connected displays and devices  
- Supports up to 100W of power delivery to keep your laptop charged  
- Compatible with Windows, Mac and Linux operating systems
Part of the fun in learning about science, technology, engineering and mathematics (STEM) comes from the ability to collaborate and participate in hands-on activities. It’s difficult to do in a normal in-classroom environment and even harder to do remotely.

As the return to the classroom begins, educators are now challenged with creating the same degree of interactivity across blended classrooms.

Trox’s end-to-end portfolio includes a variety of robust STEM tools, as well as essential in-classroom accessories, that bring collaborative learning to life for students, regardless of location.

As you re-outfit your learning environments this year, keep these offerings in mind:

**Furniture**
Facilitate safe in-classroom student collaboration with movable classroom furniture. Options range from podiums and desks to workstations, tables and chairs.

**STEM Tools**
Inspire team building and creativity with age-appropriate tools for robotics, VR/AR, creative/design apps, 3D printing, digital microscopes, electronic building blocks and creative and design.

**Storage**
Mitigate storage limitations with creative solutions.

**Content & Curriculum**
Integrate content and curricula with digital platforms and online makerspace experiences.

To learn more, read “5 Tips to Adapt STEM Teaching for Home Learning Environments”, and find additional resources at trox.com/resources.
THE DISTANCE LEARNING STUDIO

999-60321-000

The EasyIP Mixer Base Kit is an AV-over-IP classroom in a box – ideal for large hybrid classrooms and creating your own distance learning studio with multiple cameras. The EasyIP Mixer combines Dante audio sources and four Vaddio EasyIP cameras to deliver our easiest production system to date.

- Switcher supports up to four EasyIP cameras and HDMI source
- Easy to switch views of teacher, classroom and whiteboard
- Enjoy crystal clear audio through built-in echo cancellation
- Concurrent 1080p/60 USB 3.0 and HDMI output
- Includes EasyIP 10 Camera, EasyIP Mixer and EasyIP 10 Switch

CONFERENCESHOT AV HD CONFERENCE ROOM SYSTEM

999-99950-500W

ConferenceSHOT AV turns your BYO device into a small space UC system with professional PTZ quality and full room audio performance.

- Improve student engagement with pristine video from ConferenceSHOT AV
- Plug and play simplicity - 1080p/60 streaming via IP and USB
- USB 3.0 connection to leading web services: Zoom, Teams and others
- HD PTZ camera with 10x optical zoom and 74° field of view
- Bundle includes camera, microphone and HDMI audio embedder

TR310 AI AUTO TRACKING DISTANCE LEARNING CAMERA

The AVer Artificial Intelligence PTZ Auto Tracking Distance Learning Camera gives remote students a real, in-class experience while they learn from home, maintaining their connection with the teacher and fellow classmates.

- Tracks full or half body without the need for a lanyard
- Body or zone tracking options
- PoE+ with USB connectivity
- Compatible with distance learning platforms
- 10x optical zoom

JUNO LESSONCAM KIT

1000-00214

FrontRow’s new LessonCam is ready to help make remote-only or hybrid classroom learning as effective as possible.

- PTZ (Pan, Tilt, Zoom) camera that integrates with the Juno Classroom Audio System
- Camera visibly moves to off position to maintain privacy
- Works with popular video conferencing solutions like Zoom®, Google Meet®, Teams®, Skype® and more
- Easy to use software allows camera control and preset position
- Supports HD resolutions and has a 12x optical zoom
AM-300

AirMedia technology makes it simple and safe to share content from any personal device. It is the touchless presentation and collaboration technology designed to optimize every room.

- Simple to switch between sources or display both at once
- Supports wired connection (HDMI or DM)
- Canvas feature adjusts the layout based on content source
- Works with any network already in place, secure corporate, guest or direct connect
- The XiO Cloud, IoT based platform streamlines provisioning and management, so you can deploy hundreds of AirMedia devices at the same time

UC-FCM-U

The Crestron Flex R-Series can be rapidly deployed to provide convenient video conferencing in a variety of settings.

- All components mount to a wheeled cart
- HD video conferencing is enabled by connecting a computer or mobile device running web conferencing of UC application
- Built in AirMedia 2.0 technology
- Includes Crestron Mercury X Tabletop console
- Includes an intelligent collaboration camera with a 150° field of view

TANGO CAMERA

Be UC-ready in a flash by adding the 1080p HD camera to any display. Tango works with any video software including Zoom, Google Meet and more.

- 120° field of view enables you to be seen from anywhere
- 1080p HD camera boosts your videoconferencing with style
- Integrated microphone with digital noise reduction
- Simply connect camera via USB to a display
- Works with Teams, Meet, Zoom, Webex and other videoconferencing software

DM/DMPS LITE

Plug-and-play DMPS Lite and DM Lite solutions cover all the bases in smaller spaces. Cost-effective. Flexible. No programming needed.

- DMPS Lite products give you a high-value all-in-one AV solution for classrooms, huddle rooms and small collaboration rooms
- Fits your existing infrastructure – no new wires to run
- Mix-and-match versatile DM Lite transmitters and receivers to create simple systems for most spaces
- Features a 4K video scaler
- Standalone web configuration with auto-routing and display control

CHROMEBOX A10

Everything you can do on a Chromebook, you can now do right on your interactive display using Newline Chromebox A10. Power up your classroom with Google.

- Access thousands of apps directly through the Google Play Store
- Utilize the familiar Chrome OS in vivid 4K resolution
- Google Apps (Docs, Classroom, Slides, and more) pre-loaded
- Built in Wi-Fi and Bluetooth for easy connectivity
- Turns your display into a giant, 4K Chrome OS computer
COLLABORATIVE LEARNING SOLUTIONS

ScreenBeam®

SCREENBEAM 1000 EDU WIRELESS DISPLAY RECEIVER

SBWD1000EDU
ScreenBeam 1000 EDU is the ultimate 4K app-free wireless display solution providing native screen mirroring across all platforms -- Windows, Apple, Android and Chromebook, delivering unmatched classroom agility. Includes free Central Management System and enhanced ScreenBeam Classroom Commander experience, combining wireless display and student device orchestration.

• Native wireless connection across all major OS devices
• Multiple options to connect teacher, student and guest devices
• Central management for receivers and customizable in-room PIN pairing
• Share up to four screens simultaneously in Multiview mode
• HTML-based digital signage is integrated when displays not in use

YAMAHA

YVC-330 USB & BLUETOOTH SPEAKERPHONE

10-YVC330
Sleek, portable speakerphone ideal for interactive learning environments or lecture capture with technology to block background noise ensuring an instructor's voice is heard clearly.

• Three unidirectional microphones with HVAD clearly picks up speech, not classroom noise
• USB, Bluetooth and NFC Connections, and Zoom certified
• Ability to daisy chain two units for medium-sized spaces
• Self-silence technology mutes microphone while user isn’t speaking
• Automatically adjusts speaker volume to fit surrounding ambient noise levels

YAMAHA

YVC-1000 USB SPEAKERPHONE & BLUETOOTH CONFERENCE PHONE

10-YVC1000
Capture both the lecturer and audience with this scalable, intuitive communications device ideal for medium and large spaces.

• Adaptive echo cancellation and HVAD minimize background noise
• Automatic auto-tuning measures and analyzes the room environment
• Automatic system warnings mitigate poor microphone placement
• Scalability to fit various table and classroom configurations
• Multiple connection options via Bluetooth and USB, and certified for Zoom & Skype

AVerMedia

AI-POWERED TEACHER SPEAKERPHONE

AS311
The AS311 AI speakerphone delivers the teacher's voice loud and clear so students can better learn through hybrid and distance learning.

• Built-in omnidirectional microphone
• AI-powered noise suppression to filter out background noises
• Easy-to-access volume controls
• Removes echo and reverberation, even in small, compact rooms
• Compatible with leading video platforms, including Zoom and Google Meet

CTS-HC100-UHDA
线路: The Huddle Cam is the perfect solution for remote business or classroom meetings. This camera has everything you need to join in remotely, including high-fidelity speakers, a wide-angle web camera, and compatibility with today's popular devices.

• Offers simple at-home installation
• Six-element microphone provides clear audio pickup
• Noise reduction, echo canceling speakers eliminate distractions
• Web camera has auto-detect face and voice technology
• Accessible through most popular meeting platforms

CLASS VR

CVR-255 Premium Headset
ClassVR provides everything your schools needs to implement virtual reality into the classroom. With no other devices required and access to thousands of educational resources and content, ClassVR creates fully immersive and engaging experiences to take teaching and learning to the next level. It’s the ideal Google Expeditions replacement!

- Standalone headsets designed specifically for students of all ages
- Curriculum aligned resources including explorable scenes - or create your own!
- Integrates with ThingLink and CoSpaces
- Includes rugged charging and storage cases & new hand controller
- Available in sets of 4, 8 and 30 headsets

MIMIOCONNECT PRO

MC-PRO1
MimioConnect® blended learning platform combines innovative lesson building and instructional tools to create an active learning environment anywhere, anytime to ensure learning continuity.

- Whiteboarding tools to clearly illustrate concepts and identify key details
- Import docs, images, PDFs, slide presentations and videos for lessons
- Import favorite lessons from SMART Notebook, ActivInspire, MimioStudio and more
- Select from over 10,000 premade lessons aligned to key concepts
- Collaborate with students using web-enabled devices like Chromebooks and iPads

Other Valued Trox Partners

[Visuals of logos from BirdBrain Technologies, Google, Kano, KidSpark Education, MakerBot]
CRAFTBOT FLOW
3D PRINTER

Make your educational program more engaging and rewarding with 3D printing. By promoting active learning and encouraging creative thinking, 3D printing will not only improve students’ participation but will also demystify math, physics and break down barriers around STEM education.

- Easy to use play-and-play design
- Reliable printers with tech support
- Durable all-steel frame
- Full enclosure provides complete protection and ensures safety

MIMIOSTEM (MYSTEMKITS BUNDLE, MYBOT BUNDLE, LABDISCS)

MimioSTEM is our collection of STEM learning solutions to help teachers nurture and strengthen critical skills students need for life beyond the classroom.

- Robo 3D printers are turnkey for use in any makerspace
- MyStem Kits is a collection of standards-driven STEM curriculum
- Labdisc portable STEM lab encourages inquiry-based learning from anywhere
- Mimio MyBot introduces coding and programming
To learn more about our furniture solutions, contact your **Trox Account Executive**
The uncertain and ever-changing climate has been a challenge to implement technology that is not only relevant to the current situation, but can be sustainable as things continue to evolve. AVer solutions are specifically designed to keep students engaged and safe no matter where teaching and learning are taking place.

**AVer AI Distance Learning Auto Tracking Cameras**

Whether some or all of your students are learning from home, AVer AI Distance Learning Tracking Cameras give teachers a hands-free connection to their students. Unlike other static cameras, AVer Advanced Artificial Intelligence allows the camera to automatically track, move and zoom on the teacher throughout the room without the need for lanyards, and where PPE gear does not degrade the tracking capabilities.

**AVer Distance Learning Document Cameras**

Compact and portable, yet powerful, AVer Document Cameras can easily be transported between the classroom and home. Compatible with all major distance learning platforms, AVer Doc-Cams can be used to display physical curriculum, or can even be used as a high definition webcam.

**AVer Student Device Charging Carts**

With students returning to the classroom, their devices need to not only be charged and secured, but also cleaned. With intelligent charging carts to accommodate between 12 and 42 devices, including UV sanitizing options that kill 99.99% of common microbes, AVer carts keep student devices powered, secured and clean.
Software & Services

Pushing the Boundaries of Possibility

Bringing everything together for remote and hybrid learning is a daunting task. There is a lot to manage from a logistical and operational perspective, especially for administrators and IT directors who are already overwhelmed with responsibilities.

To learn more, read "5 Essential Services School Leaders Need to be Successful", and find additional resources at trox.com/resources.

Trox provides numerous solutions to consider

- **Asset Management**
  Lean on an asset management solution to keep track of all remote learning devices and equipment deployed throughout your district.

- **White Glove Services**
  Choose from a menu of configuration services — from unboxing to asset tagging and from laser etching/engraving to delivery — all meant to simplify deployments.
to keep assets and platforms operating effectively.

**Warranties & Protection Programs**
Protect your investments in remote learning with our SHIELDSTM Protection Program, which comes with accidental damage protection and extended manufacturer warranties.

**Leasing & Financing**
Lease devices directly from Trox with flexible financing options to bridge any gaps that exist in your device strategy.

**Integration & Installation**
Trust our experienced installers to execute any size integration and installation project seamlessly.

**Trox BuyBack Program**
Take advantage of the Trox BuyBack program to get value out of your unused technology and increase funding for future refresh cycles.
Maximize Returns on Unwanted Technology Products

Make recycling your old IT assets hassle free with the Trox Buyback program.

Trade devices for cash or credit that can be used in future Trox purchases.

- Accelerate refresh cycles
- Upgrade devices on a rolling basis
- Get cash or credit for future purchases
- Lower carbon footprint

GET THE MOST FROM YOUR USED TECHNOLOGY. LEARN MORE.
NOTHING PROTECTS YOU BETTER THAN A SHIELD℠!

Accidental Damage Protection Plans from Trox

In a year of uncertainty, it’s important to have accidental damage protection to ensure your pool of devices is always operational.

The SHIELD℠ Protection Program is designed for educators looking to protect their investments and lower total cost of ownership. Select from several plans that will ensure peace of mind and turn those ‘oopses’ into ‘aahs’.

GET THE MOST FROM YOUR USED TECHNOLOGY. LEARN MORE.
Learn without Limits

Providing technology that is in use by over 20 million students daily, Trox is committed to driving transformative change in education by enabling learning without limits.

</table>
2020 began as a relatively unextraordinary year, and for a company such as AVer, we began going about our business as usual. Planning for conferences, working with educators, researching trends, looking toward the next stages in Education Technology. However, by February a global pandemic was taking hold, causing a complete paradigm shift in our way of life, the way we work, the way we communicate, and, of course, the way we educate.

From an educator standpoint, teachers had to immediately change their entire way of delivering curriculum, in a way that kept students on task and engaged without losing them by switching over to Minecraft or Fortnite on their home devices. Districts had to immediately refocus budgets in order to develop a distance learning infrastructure that would still provide equal opportunity education for all.

From an EdTech developer standpoint, we were equally caught off-guard, unsure of how to quickly adapt and effectively support our educators. Even for companies like us with years of video communication and distance learning applications experience, we were quickly overwhelmed with the sheer volume and demand for certain solutions.

With decades of experience in developing classroom solutions, video conferencing and distance learning technologies, AVer had to quickly scramble to reposition, redesign, and even redevelop solutions that would be the most effective. Supporting educators in the new teaching dynamic, continuing to engage students learning from home, as well as provide solutions that were not just temporary fixes, but would withstand unknown and changing climates in the future.

In order to overcome these challenges, AVer turned to our most precious resource....YOU!

Since our inception in 1990 as AVerMedia, and our rebirth in 2008 as AVer Information, we have long been grateful and proud of our educator partners over the years. AVer has long since relied on the ideas, feedback and guidance from teachers and educators in order to best develop and provide solutions that are relevant and effective in the classroom. 2020 has been no different, and once again our educators have helped guide us down the path that allows us to provide tools that are not only effective during the current climate, but will be sustainable as the environment continues to change. Whether the future continues to be distant, back in the classroom, or a combination of both, AVer will continue to watch, listen, learn, and adjust for what is best for our educators.

So what have we learned in 2020?

It is really more of a reminder. A reminder that our educators truly are the most precious resource that we have. Not just for our company, but more importantly, for our kids and the future generations to come. The tireless and, at times, thankless work that you do has not gone unnoticed.

So as we start to tackle 2021, AVer would like to extend a huge THANK YOU to every teacher, administrator and support staff who selflessly keep our kids educated, safe, healthy and happy.

We are proud and honored to be a part of such an amazing market and culture, so thank you all, and let’s look forward to working through the new norm in 2021 and beyond!
